

# HIGH-PERFORMANCE WEAR-RESISTANT PRODUCTS

Corrosion Engineering produces an extensive range of top quality corrosion, abrasion, and impact-resistant ceramic and rubber products for the Mining and Aggregate Industry.

## ENGINEERED RUBBER LINING SYSTEMS

**Our products are produced with superior compounds offering the highest tensile strength, outstanding wear resistance and superior bonding to steel.**

- Haul Truck Bed Liners
- Chute Liners
- Vibrating Feeder Pan Liners
- Cone Crusher Mainframe Liners
- Cone Crusher Distribution Plates
- Cone Crusher Hoppers & Cones
- Discharge Lip Liners
- Feed Box and Feed Hopper Liners
- Magnetic Patch Liners (MagPatch™)
- Magnetic Rubber Liners (MagLiners™)
- Inflatable Rubber Liners (DynaVibe™)
- Profile Liners

## ENGINEERED RUBBER SCREEN PANELS

**All Rubber Screens are made from the finest quality custom-blended rubber incorporating features that minimize blinding, plugging and pegging.**

- Cable Reinforced Pretensioned Hooked Screens (CorroCable™)
- Cable Reinforced, Perforated Steel Backed Bolt-down Screens (CorroFlex™)
- Perforated Steel Backed Hooked/Bolt-down Screens (CorroSteel™)
- Molded Rubber Modular Screen Panels
- Heavy-Duty Grizzly Bars & Scalping Screens
- Trommel Fabrication & Molded Rubber Trommel Screen Panels

## CORROCERAMIC WEAR LINING SYSTEMS

**CorroCeramic combines the proven wear-resistant properties of advanced ceramics with the energy-absorbing characteristics of high-tensile rubber.**

- Rubber/Ceramic Tile Wear Liners (CorroTile®)
- Rubber/Ceramic Cube Wear Liners (CorroCube® & SUPERCUBE™)
- Rubber/Ceramic-Lined Pipe Spools, Elbows, Fittings, Chokes and Orifices
- Boltless, Magnetic Rubber/Ceramic Wear Liners (MagCube® & MagTile™)
- Rubber/Ceramic Reinforced Dynamic Inflatable Wear Liners (VibraCube®)

## CONVEYOR SEALING COMPONENTS

**With emphasis on conveyor performance and safety, Corrosion Engineering designs and manufactures innovative conveyor skirting products that are extremely effective at containing materials and suppressing dust particulates.**

- Rubber/Ceramic Skirtboard Canoe Liners
- SURESEAL® Conveyor Dust Seal Skirting
- Triple-Tail Sealing System
- KwikSkirt™ Conveyor Liner Maintenance System

## CORROSION ENGINEERING, INC.

Corrosion Engineering, Inc. is a leading designer and manufacturer of custom wear-resistant products. We are committed to delivering the lowest cost per ton, highest performing products available today.
